

DÉGRISEUR NETTOYANT

Ideal for cleaning exterior wooden structures that have been damaged due to weather conditions. The gel formula ensures a fast and penetrating action, which eliminates graying and stains without damaging the wood.

- For all types of wood
- Floors, garden furniture, shutters, doors, fences
- Especially for outdoor use

1

STEP

PREPARATION

- Application to raw wood without a trace of finish (oil, varnish, impregnation varnish...): if necessary, scrub with sandpaper 40, 60 and 100, to restore the wood or use the corrosive **Décapant Syntilor**.
- In order to optimize the action of the product, it is recommended to wet the wood before application, to open the pores.

2

STEP

APPLICATION

- Ready-to-use product, do not dilute.
- Shake well before use.
- Gloves, goggles and protective clothing are recommended.
- Apply **the Dégriseur Nettoyant** with a brush, brush or roller (long bristles), in the direction of the wood fibers. In the case of vertical surfaces, work from top to bottom.
- Leave on for 10 to 15 minutes maximum. Scrub, if necessary, with a nylon brush (bristles) to perfect the action of the product (caution: risk of splashing).
- Rinse with plenty of water.
- If necessary, make a second application, under the same conditions.
- Allow to dry for 48 to 72 hours before applying the selected finish.
- Please note that the final color of the wood will only appear after the finish has been applied.
