Ref.	Guy	You. box	You. pallet
70560-002	Spray 750 ml	10	48

SPECIFICATIONS

Product

Composition Phosphonates < 5%, surfactants amphoteric < 5%, chlorinated bleaches < 5%, disodium, sodium hydroxide.

Colour Yellowish

Density 1 g/cm³

pH > 12

Application

Application Temperature 5 to 35 °C

Tools Brush, cloth or sponge

Cleaning tools Water

Drying time According to environmental conditions

Due to the use of natural raw materials in our products, the values indicated may vary slightly in each production batch, without affecting the suitability of the product.

PREPARATION AND APPLICATION

HOW TO USE

Ready-to-use product.

It is recommended to wear protective glasses and gloves. More information in the Safety Data Sheet.

Spray directly on the stain and leave on for 10 minutes. Once the product has acted, rinse with plenty of water while rubbing with a cloth or sponge. If there is any remainder, repeat the operation.

For surfaces with a high abundance of mold, it is recommended to scrub beforehand with a scouring pad or brush and leave the product on for a maximum of 20 minutes. Then rinse with plenty of water.

It is recommended to disinfect later with FUNGISTOP.

TOOL CLEANING

With water immediately after use.

PRECAUTIONS, CONSERVATION AND SAFETY

PRECAUTIONS

Application temperature: between 5 and 35 °C.

Dangerous product. More information in the Safety Data Sheet.

Use protective glasses and gloves. Keep out of reach of children.

Do not spill down the sink, toilet or sewer in general.

Do not use in conjunction with other products. It can give off dangerous gases (chlorine).

Avoid contact with clothing: bleach.

Avoid prolonged contact on metal surfaces. Pre-testing is recommended to check for surface compatibility.

CONSERVATION

2 years in original closed packaging, protected from heat and frost.

The best quality is guaranteed within its original packaging until the maximum shelf life is reached. This can be seen in the batch number of the packaging, which indicates the date of manufacture.

Lot Number Explanation:

DDMMYY-OC = DD: manufacturing day, MM:

manufacturing month, AA: manufacturing year.

Example: Lot 240523-OC. 01: day 24, 05: May, 23: year 2023.

Manufactured on 24/05/2023. Storage life: until 24/05/2025.

ECOLOGY, SAFETY AND HYGIENE

All safety-related information and measures to be taken into account during product handling and disposal is available in the Safety Data Sheet. See the latest version.

UFI: UDG0-G0UT-D00A-72VV

Regulation (EC) No 648/2004 on detergents contains less than 5 % Chlorinated bleaches less than 5 % Amphoteric surfactants less than 5 % Phosphonates.

In the event of an accident, consult the Medical Toxicological Information Service, telephone 91 562 04 20.

Sustainable tips. Waste products and used packaging may not be placed next to household waste, but deposited in the places and containers provided for this purpose by the local authorities, whose regulations on waste removal must be respected.
